

**Maurice River Township
has received a grant from
Sustainable Jersey and Atlantic City Electric.**

The \$5,000 grant will be used to erect two shade structures: one in the Leesburg Recreation Area and one in the Heislerville Recreation Area. It is projected that the structures will be in place by the end of November 2022.

Please use these structures in the manner for which they were made so they will be available for your enjoyment for years to come.

For your safety and to maintain the integrity of the pavilion;

PLEASE DO NOT:

- **Climb on the structure or roof**
 - **Hang from the structure**
- **Throw things at or on the structure**
- **Use matches or smoke in this structure**

Thank you.
